New Book ***** Print on Demand *****.In spite of society s wish
to protect and insulate children from death, the experience of
loss is unavoidable and there is surprisingly little guidance on
how to help children cope with grief and bereavement. Never
Too Young to Know: Death in Children s Lives is the first book to
bring together diverse fields of study, offering a practical as well
as multifaceted theoretical approach to how children cope with
death. Using stories of children s own experiences supported by
data from a large research study, Silverman explains the wide
range of effects of loss upon children and the challenges they
face as they grieve. Silverman presents grief as a normal part of
the life cycle which results not only in pain and sadness but also
in change and growth. She further explains that children can
and do cope effectively with loss and the changes it brings as
long as they are taught to understand that death is a part of life
and that they will be included appropriately in the family drama.
