

Math for Wastewater Treatment Operators Grades 3 and 4: Practice Problems to Prepare for Wastewater Treatment Operator Certification Exams

By John Giorgi

American Water Works Association. Paperback. Book Condition: New. Paperback. 125 pages. Dimensions: 10.9in. x 8.4in. x 1.3in. This new book was written to provide students and operators with examples of a variety of different problems that will be encountered both on the job and for Grades 3 and 4 certification exams. The book is divided into four main parts: a review of significant numbers and rounding; two chapters on math followed by practice tests; and appendices. Each problem is presented with easily followed steps and comments to facilitate understanding. Included after each grade level are tests to help you determine where your strengths or weaknesses are. Appendices contain conversion factors, wastewater treatment equations, chemistry tables, depth-to-diameter tables, and flow charts of wastewater treatment processes. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

I actually started looking over this publication. It really is really interesting through studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You won't really feel monotony at any moment of your time (that's what catalogues are for concerning when you ask me).
