BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.GAO reviewed the Marine Corps M1A1 tank requirement, focusing on: (1) the reasonableness of the requirement; and (2) whether the Army should transfer additional tanks to the Marine Corps free of charge to help it meet its requirement. GAO found that: (1) the Corps reasonably established its requirement for 443 M1A1 tanks based on a force structure of two active tank battalions, three maritime prepositioning force squadrons, two reserve tank battalions, and tanks to sustain the fleet; (2) although the Corps requirement is basically consistent with the force structure recommended by the Joint Chiefs of Staff and the Department of Defenses Bottom-Up Review, the Corps needs an additional 222 tanks to fulfill its requirement; (3) the Corps is not considering buying the additional tanks because of their prohibitive cost; (4) although the Army has agreed to transfer 50 tanks from its force to help the Corps satisfy its requirement, the Corps efforts to obtain additional tanks have been unsuccessful; (5) the Army could enhance the overall readiness of U. S. forces and help the Corps fulfill its maritime prepositioning squadron requirements by transferring to the Marine Corps 84 of the approximately 1, 500 M1A1 tanks destined to be transferred to Army National Guard units; (6) the Marine Corps sustainment requirement for 40 additional tanks represents a higher-priority transfer than the National Guard transfer; and (7) Marine Corps squadrons would be available for deployment more rapidly than tanks in National Guard units. This item ships from La Vergne,TN. Paperback.
