Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

Taylor Francis Ltd, United Kingdom, 2015. Hardback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. **Students of Color and the Achievement Gap** is a comprehensive, landmark analysis of an incontrovertible racialized reality in U.S. K-12 public education---the relentless achievement gap between low-socioeconomic students of color and their economically advantaged White counterparts. Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap, focusing on Black and Latino/Latina students. He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory, an asset-based perspective and a systemic inequality approach. By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools, Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps. Following each of these concerns, Valencia provides a number of reform suggestions that can lead to systemic transformations of K-12 education. **Students of Color and the Achievement Gap** makes a persuasive and well documented case that school success for students of color, and the empowerment of their parents, can only be fully understood and realized when contextualized within broader political, economic, and cultural frameworks.
